Easy-to-Use

The CT-550 is a fully automatic detector that does not require any bill authentication knowledge by an operator. The CT-550 instantly verifies the authenticity and the denomination of the bill. A grand total of authenticated bills is automatically displayed on the screen, and a detailed report with bill count by denomination can be easily viewed anytime. The CT-550 is portable, included is an internal rechargeable lithium battery so it can operate for extended periods of time without needing to be plugged in.

Ideal retail solution

Ultra compact size, the CT-550 is perfect for locations where space is at a premium and an electrical outlet is not always available. The bill verification speed of less than one second guarantees your customers a smooth and uninterrupted cash transaction.
